

Correction

Infants with artificially elevated pulse oximetry levels less likely to be hospitalised during an episode of mild to moderate bronchiolitis (*Arch Dis Child Ed Pract* 2016;101:162–3). The authors omitted the complete reference for the first abstracted article. The authors would like to apologise for the oversight. The full reference for the abstracted paper is as follows: Schuh S, Freedman S, Coates A, *et al*. Effect of oximetry on hospitalization in bronchiolitis: a randomized clinical trial. *JAMA* 2014;312:712–8.
