Paediatric Trainees' Training Experiences During the COVID-19 Pandemic - A National Survey

365 UK Paediatric Trainees Answered Questions About Their Training During COVID-19

The Way Forward...

- Engage with trainees locally to explore & address contributing factors
- Support for work-based assessments
- Formalise Supporting Professional Activity time within rotas
- Continue and expand virtual teaching, with facility to catch-up

88% had cancelled teaching
25% had an exam cancelled
Lots of virtual learning
87% had change in work schedule
18% had concern about ARCP progress
Fewer learning events
ePortfolio, audit, QI projects in own time
Fatigue - relentless work patterns
Wellbeing "at rock bottom"

Need facility for remote working
