ISSN: 1743-0593 (online)

Epistle

- 235 Highlights from this issue
N Gupta, N Brown

Review

- 236 How to use autoantibodies in suspected paediatric rheumatic disease
J Keightley, J Walsh, R M Bland

Best practice and Fifteen-minute consultations

- 242 Fifteen-minute consultation: Decision-making pathway for neonatal vascular access
E Osmond, N Williams
- 246 Fifteen-minute consultation: Child with an incidental finding of a fatty liver
J Chan, G Gupta
- 253 Fifteen-minute consultation: Clinical pubertal assessment
P Prentice
- 257 Fifteen-minute consultation: oral ulceration in children
L Johnston, L Warrilow, I Fullwood, A Tanday

Epilogue

- 265 Don't just look at the surface: when mucosa tells more than the skin
A Trombetta, L De Nardi, E Barbi, V Declich, R Dall'Amico
- 268 A common complaint... a rare disease!
M-B Toner, S Molloy, P Mallett, A Thompson, L Speirs
- 271 Unilateral leg swelling in a newborn
L Cortellazzo Wiel, I Berti, M Starc, F M Murru, E Barbi, F M Rizzo
- 274 BCG lymphadenitis: a potential complication of immune reconstitution following haematopoietic stem cell transplant
C Tsilifis, I Schim van der Loeff, E Williams, S Owens, S Powell, A Gennery, M Slatter
- 276 Adolescent with abdominal pain poorly responsive to analgesia
N Chanchlani, P Jarvis, J W Han, C H McMillan, C R Moudiots

OPEN ACCESS

Interpretations

- 279 How to interpret the paediatric 12-lead ECG
P Mikerou, P Shivaram, C Kanaris

Guideline review

- 288 Guideline review: RCPCH perplexing presentations, fabricated or induced illness in children guidance 2021
K R Wear, S Li
- 292 NICE guideline review: neonatal infection: antibiotics for prevention and treatment (NG195)
S P Paul, H Khattak, P K Kini, P A Heaton, N Goel

Quality improvement

- 298 Implementing less invasive surfactant administration on a neonatal unit
S L Williamson, H McDermott, H Gowda
- 302 Introducing a one-queue model to the paediatric emergency department
C Greenbury, L Asim, H Baynes, R C Mitchell

Key publications in paediatrics: Picket

- 307 Continuous glucose monitoring improves patient satisfaction and frequency of glucose monitoring but does not lead to better glycaemic control in youth with type 1 diabetes
M Farrant, A J Friend
- 309 Treatment with amoxicillin for 3 days for chest-inflating pneumonia was non-inferior to treatment for 5 days in HIV-uninfected Malawian children
A A Ntovolou, S Murphy
- 310 Nirsevimab reduces medically attended RSV-associated lower respiratory tract infection and hospitalisations in healthy pre-term infants
S Murphy
- 312 Olanzapine was an effective additional antiemetic for children and young people undergoing highly emetogenic chemotherapy
A J Friend, B Phillips

Sustainably-sourced paper: Every print issue published by BMJ uses paper that can be traced back through every stage of production and distribution to the sustainably-managed forest where it originated from.
