Paediatric Trainees’ Training Experiences During the COVID-19 Pandemic - A National Survey

365 UK paediatric trainees answered questions about their training during COVID-19

- Need facility for remote working
- Wellbeing "at rock bottom"
- Fatigue - relentless work patterns
- Fewer learning events
- ePortfolio, audit, QI, projects in own time
- 87% had change in work schedule
- 18% had concern about ARCP progress
- 88% had cancelled teaching
- 25% had an exam cancelled
- Lots of virtual learning

The way forward...
- Engage with trainees locally to explore & address contributing factors
- Support for work-based assessments
- Formalise Supporting Professional Activity time within rota
- Continue and expand virtual teaching, with facility to catch-up
